# Slovakia's Ministry of Justice AI Anonymisation Service — Machine-Learning Redaction for 28,000 Published Court Decisions a Month

AI in the Public Sector · Good practice · Slovakia

Quality score: 60/100

Evidence strength: Moderate

### *Summary*

Slovakia's justice ministry runs a hybrid named-entity-recognition service that pre-anonymises court decisions for mandatory online publication (~28,000 a month). It reports ~90% correct detection and >55% of documents needing no fix. Human review stays.

### *Key dimensions*

| Dimension | Score |
|---|---|
| Evidence of impact / measured public value | 2/3 |
| Transparency, fairness & accountability | 2/3 |
| Transferability / demonstrated replication | 1/3 |
| Scalability beyond pilot | 2/3 |
| Governance, capability & sustainability | 2/3 |
