

fit4internet – National Digital Competence Assessment and Upskilling Platform

Digital Inclusion · Good practice · Austria

Puntuación de calidad: 88/100

Solidez de la evidencia: Descriptive / self-reported

Resumen

Austria's national digital competence platform built on DigComp 2.2 AT. Free online competence check with microlearning and digital badges; annual Digital Skills Barometer (~3,700 respondents); explicit focus on adults 60+, low-skilled workers, and jobseekers.
