Design System .italia — Open-Source Accessible Component Library for Italian Public Websites, With a Large Adoption Gap

Digital Inclusion · Good practice · Italy

Quality score: 72/100

Evidence strength: Strong

Summary

Italy's open-source public-sector design system (54 components, accessibility by design) is used by 10,000+ bodies, but a 2024 project report shows ~61.5% of joining local bodies had not yet implemented it.
