

Mpingo Conservation & Development Initiative (Tanzania)

PES & Nature-Based Solutions · Good practice · Tanzania

Puntuación de calidad: 87/100

Solidez de la evidencia: Descriptive / self-reported

Resumen

Africa's first FSC community forest (2009): MCDI supports 40+ communities managing 410,000+ ha of Tanzanian miombo woodland, with 150,000 ha FSC-certified. REDD+ credits generated via community early-season burning that prevents destructive late-season wildfires.

Dimensiones clave

Dimensión	Puntuación
Carbon — sequestration / storage, evidenced	2/3
Biodiversity — conservation / improvement, evidenced	3/3
Water & soil — retention, infiltration, erosion control	2/3
Fire resilience — risk reduction, evidenced	3/3
Governance, certification & transferability	3/3

Evaluable por C-NAPSE
