MitID Kodeoplæser and Accessible Sign-In Paths — Denmark's National eID Designed with Alternatives for Blind and Low-Vision Citizens

Digital Inclusion · Good practice · Denmark

Quality score: 68/100

Evidence strength: Moderate

Summary

Denmark's MitID eID (5M+ users) offers blind and low-vision users a free talking code reader, a screen-reader-compatible app and a one-time-code opt-out from QR login. QR stays inaccessible to fully blind users; no usage data on these options is published.

Key dimensions

Dimension	Score
Innovation level	2/5
