Movimento Web para Todos × BigDataCorp — Brazil's Census-Scale Accessibility Scan Finds Under 3% of 26 Million Sites Pass Every Test

Digital Inclusion · Good practice · Brazil

Quality score: 72/100

Evidence strength: Strong

Summary

Brazil's Web para Todos movement and data firm BigDataCorp run automated accessibility tests on every active Brazilian site each year. In 2024 only 2.9% of 26.3 million sites passed all five tests (3.3% in 2023); fully passing government sites rose from 2.3% to 10%.
