Palestine's National AI Strategy and 2026 Government AI Plan — Targets Set, Implementation Still at an Early Stage

AI in the Public Sector · Good practice · Palestine, State of

Quality score: 20/100

Evidence strength: Cautionary / limited

Summary

A national AI team formed in 2021 produced a 2023 strategy with five action areas, led by AI for government. In April 2026 the Prime Minister set targets to digitise 50% of citizen services by 2028 and train 10,000 youth. No measured outcomes are published yet.
