

Ecuador Socio Bosque Conservation Programme

PES & Nature-Based Solutions · Good practice · Équateur

Score de qualité : 60/100

Niveau de preuve : Observational / pre–post

Résumé

Ecuador's national PES since 2008 pays landowners and indigenous communities US\$30–60/ha/yr to conserve 1.6M+ ha of native forest and páramo, cutting annual deforestation from 77,000 to 44,000 ha and benefiting 175,000 people.

Dimensions clés

Dimension	Score
Carbon — sequestration / storage, evidenced	2/3
Biodiversity — conservation / improvement, evidenced	2/3
Water & soil — retention, infiltration, erosion control	2/3
Fire resilience — risk reduction, evidenced	1/3
Governance, certification & transferability	2/3
