

7.77 National Digital Empowerment Program

Digital Inclusion · Good practice · Algeria

Quality score: 32/100

Evidence strength: Cautionary / limited

Summary

Algeria's Ministry of Post and Telecommunications launched a nationwide digital-skills programme in May 2026 offering age-tailored tracks from 7 to 77 years old through seven regional skills centres, drawing over 64,500 citizen registrations within days of launch.
