ADECAL Technopole — New Caledonia's Research-to-Farm Transfer Agency, Halved by Crisis and Rebuilt as a GIP

City Innovation Library · Good practice · New Caledonia

Quality score: 48/100

Evidence strength: Moderate

Summary

New Caledonia's technopole turns lab results into island farm sectors (honey, tubers, shrimp, picot fish). Its 2024 outputs are documented, but staff fell from 70 to 35 and the budget was halved before it was refounded as a public-interest group in December 2025.

Key dimensions

Dimension	Score
Evidence of impact / measured results	1/3
Transferability / demonstrated replication	1/3
Scalability	1/3
Sustainability / continuity	1/3
Innovation	2/3
Inclusiveness / equity	2/3
Multi-stakeholder collaboration	2/3
