

AI-Driven Harmonisation of Albanian Legislation with the EU Acquis

AI in the Public Sector · Good practice · Albania

Quality score: 40/100

Evidence strength: Moderate

Summary

Albania integrated GPT-4-based NLP into its EU Integration Platform to translate EU acquis, flag legal gaps against Albanian law and draft compliance tables — a €2.6m tender-backed effort recognised at WSIS 2025, though independent commentators flag thin public oversight.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	1/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	1/3
