

AI-Powered Parliamentary Support Platform — South Korea's National Assembly generative-AI system for bill drafting and legislative search

AI in the Public Sector · Good practice · South Korea

Quality score: 47/100

Evidence strength: Moderate

Summary

South Korea's National Assembly deployed an on-premises generative-AI platform built by Samsung SDS — combining a custom LLM, retrieval-augmented generation and bill/clause-recommendation tools — for roughly 5,000 lawmakers and aides across 320 organisations, in a three-phase rol

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	1/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	2/3
