AI-verkstaden — Sweden's Shared Public-Sector AI Workshop, Funded at SEK 200 Million a Year After a One-Municipality Pilot, With a Flagged Funding Gap

AI in the Public Sector · Good practice · Sweden

Quality score: 53/100

Evidence strength: Moderate

Summary

Sweden tasked its social-insurance and tax agencies with building a shared AI 'workshop' for agencies, regions and municipalities. A pilot gave Mörbylånga municipality a personal-data masking AI. The plan costs about SEK 1.46bn over five years against SEK 200m a year of funding.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	2/3
