

Armenia's State Revenue Committee Pilots AI to Read Invoices and Flag Tax Fraud Rings, Results Still Unmeasured

AI in the Public Sector · Good practice · Armenia

Quality score: 20/100

Evidence strength: Descriptive / self-reported

Summary

Armenia's State Revenue Committee is piloting an AI tool, built by Interpretable AI and Daniam LLC with the American University of Armenia and the World Bank, to read invoices and flag fraud rings. As of mid-2025 only projected compliance gains (10-20%) had been published.

Key dimensions

Dimension	Score
