

Artificiell Intelligens — Sweden's National AI School Subject and Teacher Authorization Pathway

AI in Education · Good practice · Sweden

Quality score: 53/100

Evidence strength: Moderate

Summary

Sweden made Artificial Intelligence a nationally examined subject in upper-secondary and adult education from 2024, with a formal teacher-authorization pathway requiring university AI credits — rolled out a year early after schools' demand outpaced qualified teachers.

Key dimensions

Dimension	Score
Evidence of learning impact	1/3
Equity & inclusion	1/3
Transparency, ethics & data protection	2/3
Teacher capability & pedagogy	2/3
