

Auditing Machine Learning Algorithms — A White Paper and Audit Catalogue Co-Developed by Five Supreme Audit Institutions

AI in the Public Sector · Good practice · Norway

Quality score: 47/100

Evidence strength: Moderate

Summary

Norway's Auditor General led four other national audit institutions in publishing an open white paper and audit catalogue so public auditors can examine ML systems; adoption results are not yet publicly measured.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	1/3
Governance, capability & sustainability	2/3
