

Bokk Na Ci — Senegal's National Assistive-Technology System, from CNAO Workshops to a DHIS2 Data Layer

Digital Inclusion · Good practice · Senegal

Quality score: 96/100

Evidence strength: Descriptive / self-reported

Summary

Senegal's CNAO, WHO, UNICEF and ATscale are building a \$2.5M national assistive-technology system — training 61 fitting specialists, standing up 7 regional disability committees, and adding AT indicators to the DHIS2 health system — against an 89% unmet need.
