

Bulgaria's High-Tech Assistive Devices Programme — Certificate-Based Choice for People with Disabilities

Digital Inclusion · Good practice · Bulgaria

Quality score: 48/100

Evidence strength: Moderate

Summary

Bulgaria's labour ministry used EU Recovery Plan funding to let people with permanent disabilities choose their own high-tech assistive device — AI smart glasses, braille computers, screen readers — from a certified supplier list. Over 1,400 have received one.
