

Bulgaria's National Cybershield — a Google Cloud-Backed Federated SOC Across 54 Government Entities

AI in the Public Sector · Good practice · Bulgaria

Quality score: 33/100

Evidence strength: Cautionary / limited

Summary

State-owned Information Services is onboarding 54 Bulgarian government bodies onto an AI-driven, Google Cloud-built federated Security Operations Centre, part of an EU-backed push to harden the bloc's eastern border against cyber and information threats.

Key dimensions

Dimension	Score
