

CAMERR — Community Mangrove Restoration in the Wouri Estuary, Douala

PES & Nature-Based Solutions · Good practice · Cameroon

Quality score: 40/100

Evidence strength: Descriptive / self-reported

Summary

Since 2022, Planète Urgence, Orange and Cameroonian communities have restored 100+ hectares of Wouri-estuary mangrove near Douala — including a 3-ha Bojongo pilot at ~70% sapling survival — against a 30-year, 1,000-ha target, as national mangrove loss continues near 3,000 ha/yr.

Key dimensions

Dimension	Score
Carbon — sequestration / storage, evidenced	1/3
Biodiversity — conservation / improvement, evidenced	1/3
Water & soil — retention, infiltration, erosion control	2/3
Fire resilience — risk reduction, evidenced	0/3
Governance, certification & transferability	2/3
