

CAMINAR — Chile's Chamber of Deputies Generative-AI Suite for Legislative Drafting and Regulatory Impact Review

AI in the Public Sector · Good practice · Chile

Quality score: 47/100

Evidence strength: Moderate

Summary

Chile's Chamber of Deputies built CAMINAR, a four-part generative-AI suite for bill drafting, transcription and regulatory-impact review, using closed authorised legal databases with mandatory human validation — deployed for the 2024 Budget Law, but unevaluated.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	0/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	2/3
