

Cayman Islands' Government-Wide AI Review Gate — Mandatory Checks Before Any Public-Sector Deployment

AI in the Public Sector · Good practice · Cayman Islands

Quality score: 60/100

Evidence strength: Descriptive / self-reported

Summary

Facing ad hoc AI adoption across departments, the Cayman Islands government drafted a policy barring any AI system from being procured, piloted or deployed without coordinated review of cybersecurity, legal, data-protection, risk and architecture, ahead of 2027 AI legislation.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	2/3
