

Coca-Cola System / IUCN / Global Water Challenge — Ruvu Basin Watershed Restoration for Dar es Salaam's Water Security (Tanzania)

PES & Nature-Based Solutions · Good practice · Tanzania

Quality score: 7/100

Evidence strength: Cautionary / limited

Summary

Announced in March 2026, the Coca-Cola system is investing USD 1.94 million with IUCN and Tanzania's Wami-Ruvu Basin Water Board to restore the Ngerengere catchment that feeds Dar es Salaam's roughly 9 million residents — a newly launched, still-unevidenced watershed partnership.

Key dimensions

Dimension	Score
Carbon — sequestration / storage, evidenced	0/3
Biodiversity — conservation / improvement, evidenced	0/3
Water & soil — retention, infiltration, erosion control	0/3
Fire resilience — risk reduction, evidenced	0/3
Governance, certification & transferability	1/3
