

CognitiveBotics — AI Therapy and Learning Platform for Autistic, ADHD and Down-Syndrome Children in Hyderabad

AI in Education · Good practice · India

Quality score: 33/100

Evidence strength: Quasi-experimental

Summary

An Indian start-up's AI platform builds individualised speech, behavioural and social-emotional learning plans for neurodivergent children; a 12-month, company-funded Hyderabad study reported large gains for 35 children but used only 5 untreated controls.

Key dimensions

Dimension	Score
