

Collaborative Accessible-Space Mapping — Co-Designing Disability-Inclusive Cartography in Ibagué, Colombia

Digital Inclusion · Good practice · Colombia

Quality score: 72/100

Evidence strength: Strong

Summary

Researchers at Colombia's UNAD co-designed a collaborative-cartography mobile app with 30 people with sensorial and physical disabilities in Ibagué, letting them map and share accessible locations across the city in a peer-reviewed study.

Key dimensions

Dimension	Score
