

Croatia's ANON — AI-Assisted Anonymisation and Nationwide Publication of Court Decisions

AI in the Public Sector · Good practice · Croatia

Quality score: 73/100

Evidence strength: Descriptive / self-reported

Summary

Since 1 January 2025, Croatia's ANON system has used AI/NLP to automatically anonymise and publish every court decision that concludes a case nationwide, on a searchable public portal, while legal commentators flag ambiguous redaction standards and new burdens on judges.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	3/3
Governance, capability & sustainability	2/3
