

# Digitalisation Support Programme — Latvia's LIAA-Run SME & AI Grants

City Innovation Library · Good practice · Latvia

Quality score: 71/100

Evidence strength: Observational / pre–post

## Summary

Latvia's investment agency LIAA ran a EUR 33.5 million digitalisation grant line that drew 2,346 applications and paid out EUR 5.74 million for completed projects, then relaunched in 2025 with EUR 18.5 million more and a dedicated up-to-EUR-200,000 track for AI adoption.

## Key dimensions

| Dimension                                  | Score |
|--------------------------------------------|-------|
| Evidence of impact / measured results      | 2/3   |
| Transferability / demonstrated replication | 2/3   |
| Scalability                                | 3/3   |
| Sustainability / continuity                | 2/3   |
| Innovation                                 | 2/3   |
| Inclusiveness / equity                     | 2/3   |
| Multi-stakeholder collaboration            | 2/3   |
