

Ecuador's Comptroller General Pilots Real-Time AI Screening of Officials' Asset Declarations

AI in the Public Sector · Good practice · Ecuador

Quality score: 27/100

Evidence strength: Cautionary / limited

Summary

In January 2024 Ecuador's Contraloría General began testing AI to flag unusual swings in officials' asset declarations, including a former president, but admits no confirmed findings yet and says 300+ more auditors are needed to act on alerts at scale.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	0/3
