

El Salvador Embeds Adaptive Technology for Blind and Low-Vision Students in a Nationwide School-Device Rollout

Digital Inclusion · Good practice · El Salvador

Quality score: 72/100

Evidence strength: Descriptive / self-reported

Summary

El Salvador's education ministry has folded computers with adaptive hardware and software for blind and low-vision students into its national device-distribution programme — reaching special-education schools among the 5,200 public schools slated for the 2026 rollout.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
Evaluation evidence	1/1
Demonstrated reach	1/1
Documented learning	0/1
