

eMAG & TIC Web Acessibilidade — Brazil's Mandatory E-Government Accessibility Model and Independent Compliance Monitor

Digital Inclusion · Good practice · Brazil

Quality score: 88/100

Evidence strength: Strong

Summary

Brazil has required WCAG-aligned accessibility on federal sites since 2007 under eMAG, but an independent survey of 418 gov.br sites and 267,090 pages found only one page fully free of errors — a mandate paired with honest measurement of its own shortfall.

Key dimensions

Dimension	Score
Innovation level	2/5
Sustainability (ongoing)	1/1
Evaluation evidence	1/1
Demonstrated reach	1/1
Documented learning	1/1
