

Estrategias de Reeducción para Agresores de Violencia de Pareja — Mexico's Federal Health-Sector Perpetrator Programme

Gender Equality · Good practice · Mexico

Quality score: 63/100

Evidence strength: Observational / pre–post

Summary

Since 2009, Mexico's Health Ministry has run group re-education for men who exercise partner violence; a peer-reviewed 2015 evaluation across 8 states found 75% of screened, willing men attended one session, but only 21.5% completed 13+, and recidivism was not measured.

Key dimensions

Dimension	Score
