

EVA Facial Mouse — Co-Designed Head-Tracking App Freeing Hands-Free Access to Android for People with Motor Disabilities

Digital Inclusion · Good practice · Spain

Quality score: 96/100

Evidence strength: Descriptive / self-reported

Summary

EVA Facial Mouse is a free, open-source Android app, co-designed with Spain's ASPACE cerebral-palsy associations, that lets people with severe motor disabilities control a phone or tablet hands-free by tracking head movement through the front camera.
