

Fundación Infocentro – National Network of Community Technology Access Centres

Digital Inclusion · Good practice · Venezuela

Quality score: 88/100

Evidence strength: Observational / pre–post

Summary

Since 2000, Venezuela's government-run Infocentro network has offered free public computer and internet access nationwide, growing from a single pilot centre in Caracas to over 740 sites by 2025. Independent academic evaluation found strong community reception but limited gains i
