

Funka's MeAC Studies -- Measuring e-Accessibility Progress Across Europe

Digital Inclusion · Good practice · Sweden

Quality score: 92/100

Evidence strength: Observational / pre–post

Summary

Funka, a Stockholm accessibility body founded by Sweden's disability organisations, led the EU-backed MeAC studies (2007-2012) testing 12 sites per country across the EU, Norway, the US, Canada and Australia -- repeatedly finding public-service web accessibility considerably low.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
Evaluation evidence	1/1
Demonstrated reach	1/1
Documented learning	1/1
