

GITGE CONECTATE & EDUCA — Equatorial Guinea's State Telecoms Operator Wires Public Schools and Public Spaces

Digital Inclusion · Good practice · Equatorial Guinea

Quality score: 24/100

Evidence strength: Cautionary / limited

Summary

Since 2018, state operator GITGE has run CONECTATE (free public WiFi) and EDUCA (school WiFi and computer-lab refurbishment), even as national fixed-broadband penetration remains under 1 per 100 people — a push whose reach is still largely self-reported.

Key dimensions

Dimension	Score
Innovation level	1/5
