

Greece's Ministerial Decision on AI Governance in Secondary Schools

AI in Education · Good practice · Greece

Quality score: 53/100

Evidence strength: Moderate

Summary

Greece's May 2026 Ministerial Decision regulates AI in all public secondary schools: it bans fully automated assessment and profiling, makes AI use voluntary and teacher-supervised, and requires each school to name an AI-use coordinator, aligned with the EU AI Act and GDPR.

Key dimensions

Dimension	Score
Evidence of learning impact	0/3
Equity & inclusion	1/3
Transparency, ethics & data protection	3/3
Teacher capability & pedagogy	1/3
Scalability & sustainability	3/3
