

Ik Onderzoek Mee — Radboudumc's Co-Designed Health Monitor for People with Low Literacy or Mild Intellectual Disability

Digital Inclusion · Good practice · Netherlands

Quality score: 92/100

Evidence strength: Observational / pre–post

Summary

Radboudumc co-designed a simplified, text-to-speech health survey with co-researchers who have mild intellectual disabilities or low literacy. Three rounds reached 412, 351 and 296 respondents; 47% completed it with personal support.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
