

Ille-et-Vilaine's Register of Algorithmic Processing — 91 Departmental Algorithms Published After a Civil-Society Complaint

AI in the Public Sector · Good practice · France

Quality score: 40/100

Evidence strength: Moderate

Summary

Ille-et-Vilaine's departmental council published a register of 91 algorithms in May 2024 under France's 2016 Lemaire law, after a civil-society complaint; it lists purpose and legal basis but not source code.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	1/3
Governance, capability & sustainability	1/3
