

Informa.BR — Brazil's AI-Powered Natural-Language Search Across Federal Public Data

AI in the Public Sector · Good practice · Brazil

Quality score: 40/100

Evidence strength: Descriptive / self-reported

Summary

Brazil's CGU launched Informa.BR on 30 June 2026: citizens type a plain-language information request and AI matches it against the Transparency Portal, the Open Data Portal and past freedom-of-information replies, with a one-click path to file a new request if nothing turns up.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	0/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	1/3
Governance, capability & sustainability	2/3
