

INSENSION - Personalised intelligent platform enabling interaction with digital services to individuals with profound and multiple learning disabilities

Digital Inclusion · Good practice · Poland · Transnational

Quality score: 60/100

Evidence strength: Descriptive / self-reported

Summary

INSENSION is an online platform that allows individuals with profound and multiple learning disabilities (PIMD) to use digital applications and services. The platform recognises users' body and facial movements (among other signals) and translates them into intentional commands w
