

Kratid — Estonia's Voluntary National Register of Public-Sector AI Use Cases

AI in the Public Sector · Good practice · Estonia

Quality score: 47/100

Evidence strength: Descriptive / self-reported

Summary

Estonia's Kratid programme runs a public, voluntarily-submitted register listing around 120 AI systems in use across roughly 60 government bodies, creating a searchable public inventory of state AI adoption — though participation remains optional and unaudited.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	1/3
