

Kyrgyzstan's Kezet/AI Kyzot — An AI Tax-Audit System Aiming to Remove Human Inspectors

AI in the Public Sector · Good practice · Kyrgyzstan

Quality score: 27/100

Evidence strength: Cautionary / limited

Summary

Kyrgyzstan's tax service built an AI layer, Kezet/AI Kyzot, into its systems in 2025 to flag discrepancies and score taxpayer risk, testing full AI audits from January 2026. Officials describe removing 'the human factor' entirely, with no appeal mechanism described.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	0/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	1/3
Governance, capability & sustainability	1/3
