

LAUSD Pulls Generative AI From Every Student Device Pending a Districtwide Safeguards Review

AI in Education · Good practice · United States of America

Quality score: 40/100

Evidence strength: Descriptive / self-reported

Summary

Los Angeles Unified, the USA's second-largest school district (roughly 565,000 students), pulled generative AI access from every student device for 2026-27 pending a formal safeguards review, mirroring a simultaneous New York City moratorium.

Key dimensions

Dimension	Score
