

LEGO® Braille Bricks — Play-Based Braille Literacy Co-Designed with Blind Communities

Digital Inclusion · Good practice · Brazil

Quality score: 72/100

Evidence strength: Strong

Summary

A Braille-cell-shaped LEGO brick system, proposed by the Danish Association of the Blind and re-proposed by Brazil's Dorina Nowill Foundation, turns Braille practice into play; in Brazil alone, 19,003 kits have reached 7,397 schools across 239 municipalities.

Key dimensions

Dimension	Score
