

Lithuania's National AI-in-Schools Guidelines, Backed by a €1.7m Teacher Licensing Programme

AI in Education · Good practice · Lithuania

Quality score: 47/100

Evidence strength: Moderate

Summary

Lithuania's Education Ministry approved national AI-use guidelines for schools after a government-commissioned survey found nearly 70% of teachers already using AI, backing them with €1.7m for 30,000+ software licences — while experts warn smaller-town schools risk being left behind

Key dimensions
