

LLaMandement — France's AI Tool for Processing Parliamentary Budget Amendments

AI in the Public Sector · Good practice · France

Quality score: 67/100

Evidence strength: Observational / pre-post

Summary

LLaMandement is DGFIP's fine-tuned Llama 2 model that classifies and summarises amendments to France's annual Finance Bill. Officials report it cuts amendment-processing time from 6-10 hours to 15 minutes; senators have raised workload and digital-sovereignty caveats.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	3/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	2/3
