

# Miami-Dade Reverses Its 2023 Chatbot Ban — Gemini for Education Reaches 105,000+ High Schoolers After a Months-Long Tool Vetting

AI in Education · Good practice · United States of America

Quality score: 33/100

Evidence strength: Cautionary / limited

## Summary

After banning chatbots in 2023, the third-largest US school district vetted about a dozen AI tools and gave Gemini to 105,000+ high schoolers with a teacher 'AI Institute'. No learning-outcome evaluation yet; RAND rates measurable gains as unlikely.

## Key dimensions

| Dimension                              | Score |
|----------------------------------------|-------|
| Evidence of learning impact            | 0/3   |
| Equity & inclusion                     | 1/3   |
| Transparency, ethics & data protection | 1/3   |
| Teacher capability & pedagogy          | 1/3   |
| Scalability & sustainability           | 2/3   |
