

Morocco Launches a National AI and Digital Literacy Programme for 200,000 Children Under Maroc Digital 2030

AI in Education · Good practice · Morocco

Quality score: 40/100

Evidence strength: Descriptive / self-reported

Summary

Morocco launched a national programme in October 2025 to teach digital skills and AI literacy to an initial cohort of children aged 8-14 across 12 regions, after training 65 youth-centre staff as trainers, as part of the Maroc Digital 2030 strategy.

Key dimensions

Dimension	Score
