

Morphic — Free, Open-Source Auto-Personalization Software for Accessible Computing

Digital Inclusion · Good practice · United States of America

Quality score: 96/100

Evidence strength: Descriptive / self-reported

Summary

A nonprofit consortium's free, open-source software lets people store personal accessibility settings in the cloud and apply them with one click on any shared computer — deployed on 10,000+ machines in US and Canadian libraries, universities and job centres.

Key dimensions

Dimension	Score
Innovation level	4/5
Sustainability (ongoing)	1/1
Evaluation evidence	1/1
Demonstrated reach	1/1
Documented learning	1/1
