Mozambique's Hospital-Based One-Stop Care for Gender-Based Violence Survivors — Zambézia Quasi-Experiment Shows More Care-Seeking, but Not for Sexual Violence

Gender Equality · Good practice · Mozambique

Quality score: 74/100

Evidence strength: Strong

Summary

Mozambique's 2012 Multisectoral Mechanism brings health, police, social-welfare and justice staff together for GBV survivors. A Zambézia pre-post study at 15 facilities found care-seeking rose 31%, but not for sexual violence.
